FALL BULB BOOK 1919

MY WINDOW GARDEN "MY DELIGHT"

H. H. BERGER & CO., 70 WARREN ST., NEW YORK, N. Y.

MY GARDEN

*"Not wholly in the busy world—nor quite beyond it
blooms the garden that I love."* (Tennyson)

In that Garden—did you admire these past Spring months, first, the peeping forth when barely Winter snows were gone, blue-eyed, yellow-eyed, purple crocus, followed by rows of gay tulips, golden and silver Daffodils? Do you remember the sweet perfume of beds of lovely Hyacinths—the tender beauty of early Iris, their petals like the wings of tropical butterflies, and what of the grandeur of the royal Darwin and Breeder tulips, standing in glittering array with wide open chalices of rose or scarlet, white or violet and golden bronze, like sentinels watching Spring's departure to make place for fervid Summer? You surely wish to see all this Spring's beauty renewed another season—you may wish to add new colors, new types. Now that blessed Peace has come to us, we can turn our thoughts more freely and happily to what we had to neglect for some time.

We lay before you our offers for this Fall's planting season, and would ask you to kindly favor us with early orders, as in War-torn Europe bulbs are still scarce this season, and it is to be feared that stocks will be exhausted before the planting season closes. It is to be regretted that the Federal Horticultural Board, Washington, D. C., has ruled that at least for this year no small bulbs will be admitted to the U. S., such as snowdrops, scillas, ixias, etc. We would suggest using larger quantities of those we list to make up for the loss.

With high hopes we present to you our

1919 FALL BULB BOOK

DUTCH BULBS FOR THE GARDEN

What greater pleasure does the flower lover know than to watch after winter's icy grip on his beloved garden, the awakening of nature, the peeping forth, even thru the snow the first green shoots, which soon warmed by the sun's kisses show bud, and finally a blaze of color in glorious bloom. To enjoy all this takes forethought, time and care, also hard work. Bulbs producing all this riot of beauty in Spring, arrive from Holland in September and October, and should be planted as soon as possible after arrival, as it is preferable that the bulbs should make good root growth before the winter sets in.

The Glorious Darwin Tulips

This grand race of tulips excels in variety and brilliancy of colors, perfect form of flowers and in tall stout stems. They come into bloom after early tulips are gone, being at their best the second half of May and well into June. They are slow in developing and therefore last much longer. The gigantic flower cups rise far above the broad foliage, borne on sturdy stems 2 to 3 feet high. The flowers are self colored with bases of charming contrasting colors. They look superb planted as regiments in massive beds, but most artistic in harmonious colors as groups in hardy borders, or planted in ribbons. They can be left undisturbed for years. The demand has grown to such large proportions, that stocks are sometimes exhausted before the end of the season. We recommend **EARLY orders**. Herewith a list of **STURDIEST** and most desirable, reasonably priced.

Daffodils and Narcissus

All are hardy, grow, and multiply season after season. Wherever their gold and silver flashes, in beds, in borders, or when naturalized in wild gardens, they are jewels in Spring's Diadem of beauty. The earliest sorts beginning to bloom in March, followed by mid-season and late varieties, a continuous display of these glorious flowers is possible. Daffodils look best planted in groups, doing best in a well drained moderately rich soil, and if partially shaded from hot sunshine, will retain their beauty for a much longer period, than if fully exposed. A safe and simple rule in planting any of the Narcissus family, in the open is to cover the bulbs one and one half times their own depth. Thus a bulb measuring in height 2 inches, should be covered 3 inches from its crown. Plant large bulbs 5 or 6 inches apart, smaller ones 3 to 4 inches. Never use fresh manure near any bulbs, use bone meal as fertilizer.

Narcissii lend themselves particularly to naturalizing in meadow, orchard or lawn. The flowers blooming in the grass in Spring are exceedingly lovely. If grown for this purpose loosen and lift the turf back with a spade, enrich the soil with bone meal or other fertilizer, and after setting the bulbs, cover them firmly with the sod. Plant the bulbs when the ground is moist after a light rain.

The POETICUS and POETAZ types are especially fine in the grass.

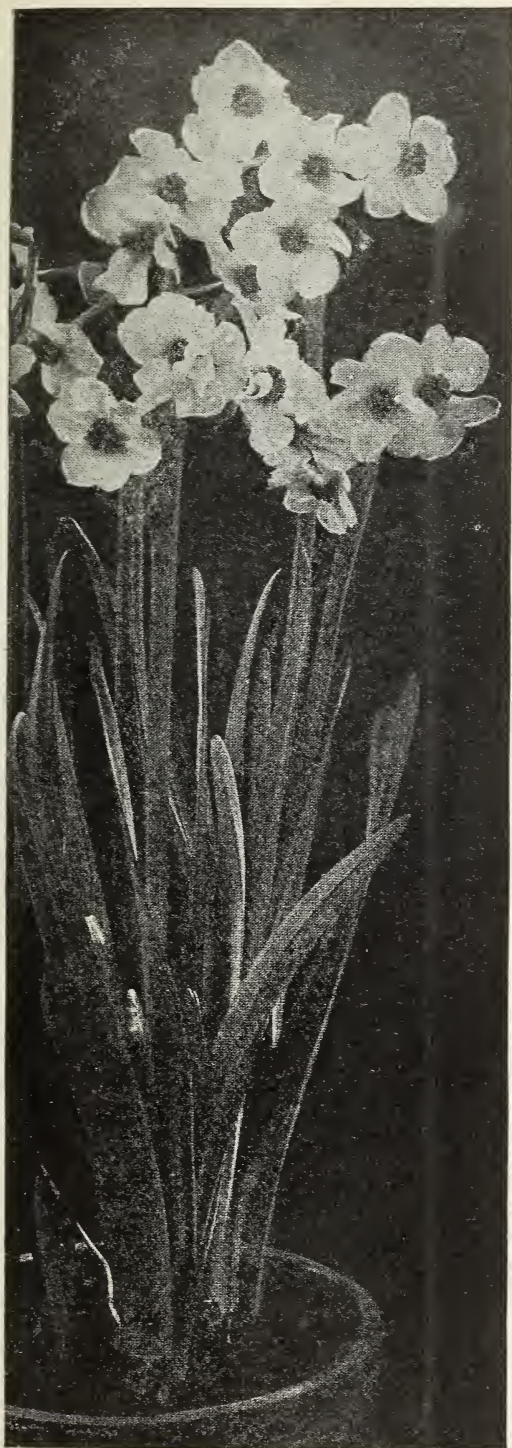

The figures after each sort indicate the flowering period, (1) for very early, (2) next, (3) mid-season, (4) late.

These oddly shaped little bulbs produce some of the finest and gorgeously colored flowers.

Turban Ranunculus. Very early and floriferous. Called FRENCH BUTTERCUPS. Have large double flowers like lovely little hedge roses. Bloom outdoors in May. Are charming for house culture. Plant 5-6 bulbs in a 5 inch pot and treat as hyacinths. Directions with every order. 12, 30c.

Crocus

Who would like to miss these charming messengers of Spring, when they open their eyes after the long Winter's sleep—blue, purple, yellow or white. Wherever seen, they form a spot of beauty.

In planting observe: Buy the **BEST—good sized bulbs**, small stuff gives small satisfaction. Plant as soon as received in September to October. Do not plant too deep, a full inch deep is quite sufficient.

A good method, should you wish them to bloom in the grass, is to take a dozen or so of bulbs, and scatter them loosely over the ground. To plant, use a dibble, by means of which you can pierce the sod, bend it aside, plant your bulb and place the sod carefully over it. Watch your time, wait till the Fall rains have made the earth soft.

If you as advised purchase first sized bulbs, each of them should produce several flowers.

We list only the best large bulbs.

Kathleen Parlowe. Enormous flowers, purest white, with a corolla of brilliant orange stamens showing in the heart, making this wonderfully beautiful.

The Pearl. Violet with a white edge, very distinct.

La Majesteuse. White striped purple.

Hero. Superb, large flowers. Dark glistening purple.

Mont Blanc. Large snowy white blossoms. Fine new variety.

Maximilian. Pure porcelain blue. Largest of all.

Cloth-of-Silver. White feathered and striped lilac.

Cloth-of-Gold. The earliest of all. Golden veined brown.

Price named varieties: 12, 35c.; 100, \$3.00; 1000, \$20.00.

Mammoth Golden Yellow.

12, 40c.; 100, \$3.50.

Bulbs and Roots for Fall Planting

Spring and Summer bloom.

Hardy Amaryllis for the Garden (Japan Amaryllis or Lycoris)

Amaryllis Halli. The only TRUE HARDY amaryllis in existence, produces in early Spring, attractive green foliage which grows until mid-summer, when it ripens off and disappears, and those not familiar with this beautiful flower would think it had died off, when lo, after a short time the flower stalks spring up as if by magic 2 to 3 feet high, crowned with umbels of from 8 to 12 large magnificent lily like flowers. The tints of a glorious evening sky at sundown are reflected in them. The tenderest rose suffused with Azure blue. No lover of flowers can miss this exquisite flower. Good flowering bulbs, each, 25c.; 3, 70c.; 12, \$2.75. Extra Strong Bulbs, each, 30c.; 3, 85c.; 12, \$3.00.

The Great Ismene. (The White Amaryllis). Not enough can be said in praise of the exquisite beauty and purity of this flower. Large snowy white, and of delicious fragrance. These lovely plants have a peculiar grandeur which one can feel when seeing it in bloom, but which is difficult to describe. Bulbs are large and strong, and begin to flower a very short time after planting. They send tall flower stems which each bear several of the gorgeous blossoms. As a garden bulb treat same as gladioli. Do not fail to plant it. It will more than make you enthusiastic, for it is superior to the magnificent Bermuda Trumpet Lily. The price brings it within the reach of all. Each strong bulb, 20c.; 3 for 50c.; 12, \$2.25.

GIANT
ISMENE
CALATHENA

Anemones

The glowing tints of these beautiful flowers, attract the attention and are the admiration of all passers by. They look best planted in mixture, altho individual taste can dispose of them in separate tints.

Flag Iris or Fleur-de-Lys

In their gowns of crinkled silk,
Golden banded, ranked in order,
Brilliant as the sunset fire is,
Dark as storm clouds, white as milk,
Blue as Heaven, in our garden
Stand troops of IRIS.

The ideal time for planting Irises is the month of August and September, for then they have completed their Spring growth, and are ready to begin life anew in their new home, soon establishing themselves and growing into sturdy plants, which will give masses of bloom next Spring and Summer. They all have a delightful soft fragrance. The Iris is a sun lover, growing most luxuriously and flowering most abundantly in full exposure to the sun. The Florentinas and Germanicas will thrive in partial shade. Iris are not particular as to soil, ordinary good deep garden loam suits it best. To enrich soil if necessary use a little bone meal. GOOD DRAINAGE is most essential.

Letter "S" stands for standards, the three upright petals; "F" for falls, the drooping petals.

Each, 15c.; 12, \$1.55; (except where otherwise priced)

- Aurea.** Rich chrome yellow.
Each, 25c.; 12, \$2.50.
- Candicans.** Light lavender, F. reddish purple.
- Cythere.** S., azure blue; F., deep blue. Large and very early.
- Florentina Silver King.** Very early. Large ivory white, sweet scented, abundantly blooming blossoms.
- Florentina Blue.** "Sweet Orris." S., and falls deep lustrous blue.
- Flavescens.** The large primrose Iris. Very beautiful.
- Gracchus.** Most lovely. S., primrose; F., veined red, reticulated white.
- Herant.** S., bright blue, falls much darker. A beautiful broad leaved early sort.
- Marie Corelli.** Pure yellow standards, falls, dark bronzy crimson.
- Mrs. H. Darwin.** Snow white, falls slightly reticulated, violet at base, beautiful and free flowering.
- Mrs. Neubronner.** A lovely deep golden yellow.
Each, 30c.
- Othello.** Very tall and handsome. S., pale violet blue, falls velvety violet.
- Parkmanni.** S., pure lemon; F., white veined purple.
- Pearl.** S., pale lavender; F., deep violet.
- Pres Thiers.** Lovely cattleya tints. S., mauve pencilled brown; F., purple bronze and white veined.
- Queen of the Gypsies.** Dusky light bronze, falls purplish red, golden beard, a distinct and rich color combination.
- Sans-Souci.** Intense yellow, with beautiful bronze falls.
- Sappho.** S., white frilled lilac. F., pure white veined lilac. Large and beautiful.
- Velveteen.** Yellowish buff, intense purple falls.

- Pallida Speciosa.** The great purple flag. Enormous deep mauve flowers, borne on strong stems, the falls light violet.
Each, 35c.; 12, \$3.50.
- P. Her Majesty.** New and very beautiful blending of tints. S., lovely rose pink; F., bright crimson.
Each, 20c.; 12, \$2.25.
- P. Queen of May.** Soft clear pink to rose lilac. Most stately and lovely.
Each, 20c.; 12, \$2.25.

Japan Iris Kaempferi

The grandeur of these irises surpasses any wordy description—the large flat flowers measure 5 to 7 inches across; this class of Iris is, so to speak, semi-aquatic, for to have them flourish they must be planted where they can have abundant moisture, at the same time they **DISLIKE** wet feet in water. They succeed in spite of this in dry localities, provided the ground is kept **WELL STIRRED**, using a good well enriched mellow loam. **WATER ABUNDANTLY**. They should be thoroughly manured in Winter, but not during the Summer. They are the last of the procession of Irises to flower—in August. To have a beautiful flower effect in beds where their glory has vanished, we advise planting gladioli bulbs between the plants, the foliage is same as that of Irises, and they require little space.

Hardy Lilies

(We first imported Japan Lilies in 1877)

If we accord to the rose the title of Queen of Flowers, the lily is the King—no other flower possessing such charm, such stately habit, coupled with delightful fragrance, such rich and multi-colored bloom. Once you grow any of the lily family, you will be fascinated more and more, until from growing a few you are eager to have all represented in your garden. **ALL LILIES** here offered are **HARDY**.

Lillium Auratum

Pure White Lilies

- Lil. Candidum.** The Annunciation or Madonna Lily. One of the most beautiful lilies growing. Height, 4 to 5 feet with 4 to 20 flowers on the stem, snowy white with golden stamens. Fragrant, old fashioned and well known, 'tis true, but unsurpassed in its chaste beauty. Easiest of culture, can be left for years in same position. It thrives in either sun or shade, preferring the former. It flowers in June and July, and blooming together with blue delphinium, the beauty and artistry of the picture is complete. The bulbs must be planted early, as they make their leaf growth in the Fall. NOTE: These bulbs will be VERY SCARCE this season.

Select Bulbs, each, 25c.; 3, 70c.; 12, \$2.75.

Extra Selected Bulbs, each, 30c.; 3, 85c.; 12, \$3.00; 100, \$20.00.

(Do not plant small bulbs, they give small satisfaction.)

- Lil. Speciosum Album.** Height 3 ft. August. Pure white with gracefully recurved petals—highly fragrant.

Extra Selected Bulbs, each, 50c.; 3, \$1.25, 12, \$5.00.

- Lil. Martagon Album.** Ht. 4 ft. July. The white Turk's Cap Lily. One of the rarest and finest lilies in cultivation, carrying 20 and more flowers to the stem, waxy white.

Each, \$1.50.

- Lil. Auratum.** (Japan's Golden Queen Lily). Grandest of all lilies. Ht. 4-5 feet. August. The flowers are enormous, 6-12 inches across, pearly white, spotted reddish brown with a golden band down center of each petal. Thrives best in partial shade among shrubs, etc.

Large Select Bulbs, each, 40c.; 3, \$1.10; 12, \$4.00

- Lil. Regale.** (Myriophyllum.) Ht. 3-4 ft. July. A new and glorious lily from China, most vigorous, with sturdy stems. The short trumpet shaped flowers are pearly white, almost translucent, the heart suffused yellow, outside petals lightly shaded amber. Very distinct.

Each, \$1.10; 3, \$3.00.

- Lil. Speciosum Roseum.** (Or Rubrum.) Ht. 3 ft. August. A magnificent lily. Petals recurved, ground color white flushed, deep rose, all rugged, with rubies and garnets, and sparkling with crystal points. Green anthers.

Selected bulbs, each, 40c.; 3, \$1.15, 12, \$4.50.

- Lil. Speciosum Magnificum.** Ht. 3-4 ft. Same type as L. Roseum, the flowers are more massive, the stems stouter, the petals flushed ruby carmine, margined white. True to its name, "Magnificent."

Each, 35c.; 3, \$1.00; 12, \$3.50.

- Lil. Brownii.** (True species.) 3 ft. July. Long trumpet shaped flowers, the inside a creamy ivory white, while outside of petals is shaded reddish brown. This lovely lily is of easiest cultivation, requires good soil, free from all stimulating manures, etc. GOOD DRAINAGE, and a warm situation. Winter protection same as for tulips. The bulbs can be left for a long time in same spot. They multiply rapidly.

Extra Selected Bulbs, each, 50c.; 3, \$1.35; 12, \$5.00.

- Lil. Washingtonianum.** Ht. 3-4 ft. August. The Queen lily of the Pacific Coast. Color, pure white when opening, gradually changing to rose pink, and when fading, to wine color. The wide open trumpet shaped flowers grow in rich clusters, intensely fragrant. Thrives superbly in border, amongst shrubbery or some sheltered spot. Loves deep rich loam. Plant 3 times its depth and protect well in winter. One of the rarest and most beautiful of lilies.

Each, 50c.; 3, \$1.35; 12, \$5.00.

- Lil. Martagon.** Ht. 3 ft. June-July. Vigorous grower. Very graceful flowers, producing 20 to 30 purplish pink flowers. Most graceful and floriferous. Plant shallow. Loves cool, damp places.

Each, 25c.; 3, 70c.; 12, \$2.50.

Yellow and Yellow Ground Lilies

- Lil. Excelsum.** Ht. 4-5 ft. June-July. The stately Nankeen lily. In grace of form, color and fragrance it has few equals, bears 5 to 12 beautifully reflexed flowers of a warm nankeen yellow. Of easiest culture, succeeding in any good soil.

- Lil. Hansonii.** 3-4 ft. June. Bright green foliage, in whorls on stout stems, rich waxy yellow flowers, black spotted. Thrives in sun or shade as luxuriantly as the common tiger lily. One of the earliest lilies to flower and so healthy and permanent, once established it lasts for years, proving a cheap bulb in the end.

Selected Bulbs, each, 50c.; 3, \$1.35; 12, \$5.00.

- Lil. Parryii.** 3-4 ft. July. A native of the Pacific Coast. Of most beautiful form and color, the large trumpet flowers bright citron yellow, deliciously fragrant. Plant in warm, well drained situation, 4-5 inches deep.

Strong Bulbs, each, 50c.; 3, \$1.50; 12, \$5.50.

Orange Red and Scarlet Lilies

- Lil. Henryii.** Ht. 4-6 ft. August. One of the most vigorous lilies in existence. Thrives in ordinary soil, prefers a mixture of peat. Can be left undisturbed for years, without special care, sending up taller flower stalks each season, bearing magnificent flower clusters of 20 to 30 flowers deep orange yellow lightly spotted with brown. Plant 6 inches deep.

Select Bulbs, each, 35c.; 3, 90c.; 12, \$3.50.

Extra Monster Bulbs.

Each, 50c.; 3, \$1.40.

- Lil. Canadense.** 2-3 ft. June-July; the Canadian lily. Wide open upright flowers varying from orange yellow to orange red heavily spotted inside. Very sturdy and hardy, does well in shade or open. In clumps among shrubbery this species is exceedingly attractive.

Each, 15c.; 3 40c.; 12, \$1.50.

- L. Canadense Rubrum.** Brilliant red.

Each, 15c.; 3, 40c.; 12, \$1.50.

Lil. Superbum

Paeonias

Rivals of the rose. What other flower makes such a display from middle May to midsummer, such delightful fragrance, dark green foliage, contenting itself with comparatively little care. While Paeonias can be planted in Spring the BEST time to plant them is from end August till 25 Sept. Spade the ground deep and thoroughly incorporate a liberal supply of old decomposed manure and top dress again in Spring. Do not plant too deep, a couple of inches over the buds is sufficient. Effective wherever planted. We list only the CREAM of the most satisfactory sorts.

Avalanche. Large blooms of perfect form. Milk white cream centre with ruby red marks on few petals. Superb. Each,

Duchess de Nemours. Very fine cup shape blooms with sulphur white with green reflex. Each, 50c.

Edulis Superba. The famous decoration day Paeonia Bright clear pink, with silvery sheen. Each, 60c.

Eugene Verdier. Pale hydrangea pink center, deep rose flaked crimson, highly fragrant. Each, 75c.;

Festiva Maxima. Enormous full double flowers one of the finest white. Each, 50c.;

Humei. Immense carmine pink flowers. Late. Each, 50c.

Gloire de Douai. Very dark, purplish garnet with black reflex. Very showy. Each, 50c

Andre Laurier. Delightful silky silvery rose. Each, 50c.

L'Indispensable. Very pale lilac shading to violet rose toward center. A very double beautiful flower of immense size. Each, \$1.00.

Madame Calot. A wonderfully free flowering Paeonia. Pale hydrangea pink. Fragrant and fine for cutting. Each, 50c.

Madame Coste. Outer petals soft pink, center glossy sulphur white, extra fine. Each, 50c.

Monsieur Jules Elie. King of all paeonias. An ideal glossy lilac rose, shading to amber at the base, overlaid with a silvery sheen that fairly dances and shimmers in the sunlight. Each, \$1.00.

We send fine large roots with several eyes, not small single eyes.

One each of the 12 Superb Varieties for \$7.00 (not delivered).

Trillium Grandiflorum

(Wood Lily Wake Robin)

Clumps of these interspersed amongst shrubbery forms a lovely spot. Large green leaves which remain beautiful for a long time after the flower. Pure white or purple bloom. Bloom profusely in earliest spring. Love partial shade, thrive superbly north side of house where groups of ferns flourish. 3, 35c.; 12, \$1.25.

Dielytra Spectabilis (Bleeding Heart)

A most lovely plant with its drooping branches laden with hundreds of bright rosy heart shaped blossoms in early Spring. It would seem that every garden elf had hung up his little heart to welcome the warm Spring sunshine. Much liked as a graceful pot plant for room decoration.

Each strong root, 25c.; 3 for 65c., postage extra; 12, \$2.50, dozen weigh 3 lbs.

FOR WINTER BLOOM

Lily of Valley

Tulips Growing in Mossfibre

MI-LADY'S WINTER GARDEN

We take it for granted you love your home and wish to see it at all times bright and cheerful. Nothing tends more to give a room the aspect of beauty than a profusion of flowers. It is not too much to contend that a dining table decorated with flowers gives a particular zest to the viands. The old Romans knew this when not only were their tables smothered in flowers but they wore garlands of them when feasting. While we need not imitate the Romans we can at all times have a bowl, a spray of flowers on our table.

There is a vast difference between "BOUGHTEN" flowers and those you raise yourself. The former droop and die after a very little while. Those you have grown will last for days—weeks. There is no necromancy about growing house bulbs. They require little labor, expense or experience.

To begin with a few bowls, a little of our prepared moss fibre for some kinds, a few pebbles and a little water for others, a little wait, and then, a house full of fragrance. Such a wealth of interest and joy.

A great improvement over the OLD WAY of growing in earth, has been found in

Our Specially Prepared Moss Fibre

which contains all the elements for luxurious growth of bulbs. So clean to handle, and only used in receptacles **without drainage** (no hole in base of vessel), it will not ruin or mar the finest polished surface. Instead of the old unsightly pots, artistic china or pottery ware can be used. This method was introduced in England some 20 years ago. In 1909 we purchased the original FORMULA for preparing this Fibre which we have since greatly perfected, that now every bulb adapted for house culture can be flowered successfully in it. We have hundreds of letters expressing the greatest satisfaction this method of growing bulbs has given our customers. We send FULL DIRECTIONS "How to handle and grow bulbs in it."

We furnish **OUR PREPARED MOSS FIBRE** as follows:

- 1 lb. prepaid to your home, 30c.
- 3 lbs. prepaid to your home, 80c.
- 5 lbs. and over not prepaid, \$1.25.
- 10 to 25 lbs. at 20c. per pound.

Early Bulbs for Early Flowers

The first to arrive from La Belle France in August are the well known favorites.

Paper White Narcissus. (See picture.) One of the most loved and satisfactory flowers for the house. Can be had in bloom for your Thanksgiving table and right through the winter by following our directions of successive plantings. Stout stems 16 to 18 inches high bear heavy clusters of crystal white, starry, delightfully fragrant flowers. The veriest amateur succeeds with them. Children love to plant them and watch their budding and blooming. Paper White Narcissus flower in 8 weeks from time of planting.

EXTRA select bulbs, each, 6c.; 12, 60c.; 100, \$4.00.

Large select bulbs, each, 5c.; 12, 50c.; 100, \$3.50.

Grand Soleil D'Or (Golden Sun of France). Wherever blooming golden sunshine floods the darkest corner, heavy clusters of golden flowers with orange cup, delight the eye.

Extra select bulbs, each, 12c.; 3, 35c.; 100 \$8.50.

Early Double Romans (Double Sacred Lily). Often preferred to the Chinese lilies. Flowers double pearly white shaded amber. Lasting and very sweet.

Each, 7c.; 12, 75c.; 100, \$5.00.

Chinese Sacred Narcissus. The "Shui Sin Far" or Flower of the Gods, so called by the Chinese. This variety bears in profusion silvery white blossoms with golden yellow cups, exquisitely perfumed. The bulbs are very large and throw up several spikes of flowers, blooming about six weeks after planting. Lovely grown in shallow bowls with pebbles.

Each large bulb, 25c.; 3, 70c.; 12, \$2.50.

Grand Monarque. Polyanthus or cluster flowered Narcissus. Immense clusters of bloom, ivory white with lemon cups. Give excellent results when grown in pebbles and water.

Each, 5c.; 12, 50c.; 100, \$3.50.

Note: All Narcissus and Hyacinths can be grown in pebbles and water.
Pebbles, 1b., 10c. 5 lb., 35c. We do not prepay on pebbles.

French Roman Hyacinths

One of the sweetest and most charming flowers to plant in bowls (see picture). Can be had in bloom for Thanksgiving. Invaluable for winter flowering in the house, and among the most easily cultivated and satisfactory of bulbs. Plant 5 or 6 in a six inch pot or bowl.

Early White Roman Hyacinths.

First Size Bulbs, 3 for 35c.; 12, \$1.20; 100, \$9.00
Extra Select Size, 3 for 40c.; 12, \$1.50; 100, \$10.00.

Rose Colored. A beautiful companion to white.
3 for 35c.; 12, \$1.25; 100, \$9.00.

Delicate Lavender.

3 for 30c.; 12, \$1.00; 100, \$7.50.

Dutch Hyacinths

Can be grown in pots, bowls, in OUR MOSS FIBRE, or in glasses filled with water, which is a most fascinating process, as the development of the roots can be observed almost from day to day. Full directions "How to succeed with Glass Culture," sent on request.

Collection of the Very Choicest Hyacinths

First Size Prize Bulbs for House Culture.

Argentine Arendse. Very early, snow white, large broad petalled bells, tall elegant spike.

Queen of the Pinks. A grand NEW brilliant rose.

Enchantress. Large pure ALSACE BLUE bells, a marvellously beautiful flower.

Queen Emma. Enormous truss of purest waxy white bells.

General De Wet. Throwing two or more tall sturdy spikes, filled with pale pink bells.

Menelik. Darkest of all hyacinths. Brilliant glossy blue black. Splendid contrast to white or pale rose.

Bird of Paradise. Clear satiny yellow.

Lord Balfour. Exquisite violet tint.

La Victoire. Brilliant rosy red bells. A grand novelty.

Perle Brillante. Most beautiful light blue bells, tinted lavender.

Any one bulb on this list, 30c.; the set of 10 choice bulbs, \$2.75.

Our Lady Hyacinths

Gems of bulbs called Lady Hyacinths in England some hundred years ago, when ladies first began cultivating these bulbs. These bulbs are of easiest cultivation, succeed admirably in Our PREPARED Moss Fibre. Unequalled for bowls, and if planted early, can be had in flower by January, and throughout Winter by successive plantings. The bulbs may be planted close together, 5 to 6 in a 5-6 inch receptacle. For description and prices see page 1.

Glasses for Growing Hyacinths

We offer two styles of these glasses, the Belgian TALL and the LOW TYE shape. Colors: Crystal, amber, green and blue.

TALL Belgian, each, 35c.; 12, \$3.50.

LOW TYE, each, 30c.; 12, \$3.25.

The Culture of all Hyacinths and Narcissus for the house is the SAME. GOOD bulbs to start with. Larger bulbs give more flowers. Plant as soon as received for early flowers, as early as possible, and continue to plant about every two weeks if you wish a succession of flowers throughout the Winter. After planting, place the pots in a cool (cool, means 50-60 degrees), almost dark, airy place, not a stuffy closet. Do not allow the bulbs to dry out but keep moderately moist. As soon as the bulbs form roots, which varies from 4-6 weeks the flower shoots begin to grow. When these are 2 to 3 inches tall, bring to the light. A temperature of 60-65 degrees is at all times sufficient. Give fresh air weather permitting and weak solution fertilizer (Oyama Plant Food is to be recommended), after buds are formed is most beneficial.

Daffodils

These are given the same treatment as hyacinths. No bulb succeeds better in Our Moss Fibre than these. Following sorts are the very best selections:

GOLDEN YELLOW

Emperor

Golden Spur

Tenby Daffodil

Barri Conspicuous

Autocrat

Van Sions

CREAM AND GOLD

Sir Watkins

Victoria

Katherine Spurrell

Queen Bess

Lucifer

Stella

PURE WHITE

Mme. De Graaff

Wm. Goldring

Sea Gull

Besides the above there are all the lovely cluster flowered Narcissi or Poetaz varieties, and the sweet Jonquils, all of which are a delight. Enchanting and exquisitely dainty are the Miniature Daffodils, the delicate primrose Johnstoni Queen of Spain, and W. P. Milner, and Helene Gracilis, all of which are especially adapted for early forcing and certainly nothing is more lovely in the bleak early Spring days than these dainty winsome early flowering gems in bowls and pots bringing brightness to the darkest day.

Tulips

The gay bright colors of tulips show to greatest advantage in the Winter garden.

Give them plenty of room. Use deep pots, leaving an inch of space from the rim to allow for watering, as the roots of tulips are very fine and long, and need a good supply of water. Once allowed to dry out, the buds will blight. Treat same as hyacinths.

The best for EARLIEST flowering are the Duc Van Thol tulips. These can be had in bloom by New Year's. Colors, scarlet, rose and yellow. A bowl of the scarlet and yellow is a delight to the eye.

Other fine sorts are Lady Boreel white; Ophir D' Or, yellow; Grand Duc, brilliant scarlet edged gold; Jenny, rose, and Price of Austria. Among the double are Couronne D' Or, Tea Rose, Murillo, and Tournesol Scarlet.

Darwin Tulips for Easter Forcing give us Baronne de la Tonnaye, Margaret Farncombe Saunders, and Wm. Copeland, that delicious Sweet Lavender.

For prices and description, see page 2.

Crocus

Are veritable jewels for house culture—they do admirably simply planted in rather shallow bowls or saucers with pebbles and water or in Our Prepared Moss Fibre. Set at once in light. Use only LARGE BULBS to secure finest flowers. The bulbs must NEVER get dry, but must be kept moist, not soggy and wet. Growing in Moss Fibre, plant bulbs one inch deep. The best sorts are:

Kathleen Parlow. White, golden corolla.

Hero. Violet.

Louis D'Or. Golden yellow.

Pearl. Enchanting lavender.

For prices and further description, see page 7.

Spanish Iris

A charming early Spring flower. A splendid grower in the Moss Fibre. Plant 6-8 bulbs, according to size, in a 6 inch bowl. Can be grown in the light at once. Mixed sorts only this season. See price, page 9.

Great Ismene (The Peruvian Daffodil)

See page 7 for description and price.

Makes an admirable pot plant for the house. The clusters of fragrant white flowers are as superb as the most beautiful lilies.

Amaryllis

A. Vittata. Royal Hybrids. One of the most beautiful and showy flowers for the house. These truly Royal flowers of warmth and light—of exotico gorgeousness, spreading huge petals of hitherto unknown beauty and tropical richness of coloring. The bulbs we send out are very large, bloom at once, and call forth admiration wherever seen. Best planted in Fibre. Each, \$1.00; 3 for \$2.25, with full directions.

A. Formosissima. (Jacobean Lily.) A very showy flower of deepest scarlet. Can be grown in pebbles and water like a hyacinth or in Fibre, and will give beautiful bloom in Mi-lady's Garden. Each, 20c.; 3 for 50c.

A. Nerine Japonica. This lovely norine flowers late Fall to January. Flowers a deep scarlet crimson and anthers lighter, and the whole flower looks as if frosted with silver. It sparkles in the sun or in artificial light. Lasts in bloom a long time. Each, 12c.; 12, \$1.25.

Anemones

These are very attractive planting 4 roots in a 5 inch pot, in Fibre or good porous soil. Start them quite cool in full light, water very moderately until growth appears, when they can be given a little more warmth.

See page 7 for prices and description.

Freesias

Purity. Ready in August. The sweetest flower of the day. The flowers are snow white, fragrant like honey, in masses on long sprays. Most popular for window gardening. Plant 6-8 bulbs in a 4 inch pot. We send full directions for planting, just how, and how to have cut flowers.

3 for 15c.; 12, 40c.; 100, \$2.60.

The Exquisite Rainbow Freesias. Glistening in the tints of precious stones, these jewels of flowers shine like topaz, amethyst and ruby or tender rose and royal purple. The bulbs are as yet rare. Culture same as for white.

Each, 10c.; 12, \$1.00.

PLEASE NOTE

All bulbs listed are prepaid to your home.

7th and 8th zone add 10% to your order.

Freesia Purity

Buttercup Oxalis

One of the prettiest flowers for indoors—Bright colored, set in their handsome foliage like jewels in a casket. They all have vivid green three lobed foliage, drooping branches bearing masses of large wide open cup shaped bloom, well adapted for hanging baskets and pots. Easily grown. Plant 8-10 bulbs in a 6 inch pot, bring at once to light.

Bermuda Buttercup. Bright buttercup yellow. Bloom constantly for weeks, with the greatest profusion.

3 for 10c.; 12, 35c.; 100, \$2.00.

Grand Duchesse. White, lavender, rose pink. A free flowering variety of great beauty. Flowers from November till June.

Price for any color, 3 for 10c.; 12, 30c.; 100, \$2.00.

Boveit. Clear ruby red.

3 for 15c.; 12, 40c.

Callas

Godfrey Everblooming Calla. Most desirable for long and continuous bloom. Quantities of snowy white slightly fragrant flowers. Each, 30c.; 12, \$3.00.

Calla Ethiopica. (The Lily of the Nile.) First a mass of lovely undulated glossy foliage from out of which rises the tall stout stem, bearing rolled tightly, the bud of this lovely flower, mysterious as the Nile. Always during the night, in silence and darkness the bud unfolds—and lo, in the morning light shows the royal flower, creamy white. Plant in rich soil—set at once in light, water abundantly without keeping the soil soggy. Extra Strong Bulb, 25c.; 3 for 70c.; 12, \$2.50.

C. Elliottiana. Rich velvety golden yellow flowers with glossy green leaves, covered with pelucid spots. Its great size of bloom and brilliant color make this plant a beautiful sight for the Winter garden. Extra Strong Bulb, 50c.; 3 for \$1.25.

C. Riccardia. Foliage same as Elliottiana, but the flower is pure white. Extra Strong Bulb, 20c.; 3 for 50c.; 12, \$2.00.

Aurata (Lemon Calla). Flowers primrose yellow with a black center, very conspicuous and showy. Foliage light green with silvery spots. Makes a superb pot plant. Each, 25c.; 12, \$2.00. The set of 5 magnificent callas, \$1.30, prepaid to your home.

Special Offer of Seeds for Fall Planting For Your Garden

We carry a large stock of "PERENNIAL PLANT SEEDS" which should be sown during AUGUST and SEPTEMBER to secure young plants before Winter sets in. These wintered in cold frames will supply fine plants for growing on in Spring and flowering next summer.

Send for our special list of PERENNIAL PLANT seeds.

Lily of the Valley

Have you ever grown our **Magic Lily of Valley pips?**

If not, give them a trial—your pleasure will be great, the little trouble taken will seem so slight, you will just wish to repeat it.

We have, since having introduced this novel way of growing the delightful fragrant flowers, many standing orders from our customers, whom we supply all through Winter with the pips, sending them at stated intervals, thus securing for them a continuous bloom. We can furnish them from first of November until the middle of April, not later. Our last orders are generally sent out to flower for Easter and many thousands are sent to flower in time for Christmas.

As the pips are grown in our **prepared mossfiber** without any drainage, you can use any bowl, jardiniere or receptacle not metal and without a bottom hole. The flowers will be perfect inside of 18 to 20 days. And such flowers! Strong sturdy stems 10 to 15 inches high, with 12 to 14 large bells to each stem, and such perfume. The whole room is filled with it—so delicate, so entrancing.

THESE UNIQUE FLOWERS WILL WIN YOUR HEART.

Brodiaea

Calochortus—Mariposas, or Butterfly Tulips

FLORAL BUTTERFLIES OF TROPICAL BEAUTY

These lovely natives of the Northern Pacific coast should grace our garden borders, and blossom among our Winter favorites. They are all **HARDY** in our Eastern climate, with slight protection can remain, once planted, for a long time in same spot, where they multiply rapidly. Of greatest value to the lover of the **UNIQUE**, dainty and graceful in nature, these flowers are lovely wherever seen in border or woodland. They are **PERFECT GEMS** in the Rock Garden.

CULTURE for the **GARDEN**. Do not plant before **NOVEMBER 1st**, to prevent growth starting before Spring. Plant 2 to 2½ inches deep in well drained soil, good loam mixed with sand and Leafmould. Use **NO** manure or fertilizer. When frosts appear, cover or mulch with dry leaves 3 to 4 inches deep, removing this when warm Spring days arrive.

For **House Culture** they all succeed admirably in our **PREPARED MOSSFIBRE**, in pots or bowls. Treatment, the same as for Hyacinths or tulips.

Calochortus "Mariposa" Butterfly

Butterfly Tulips, so called by the early settlers, who first beheld the gorgeously tinted petals vying in beauty with their winged prototypes. We offer only the **BEST** and most satisfactory sorts.

- C. Albus.** (Fairy Lantern.) Translucent silvery white petals, in globular form, hanging like round closed lanterns on tall swaying stems.
- C. Amabilis.** Same form as "Albus," but of a rich golden yellow tint. Strikingly beautiful.
- C. Plumbea.** A superb type. Tall branching stems bear numerous large stained rose to lilac flowers.

- C. Maweanus.** Daintiest of them all. Glistening white flowers filled towards the center with delicate blue tipped hairs.
Each, 10c.; One each of 4 sorts, 35c.; 12 of a variety, \$1.00.
Beautiful mixture of Calochorti, 12 for 75c.; 100, \$5.00.

Brodiaea

All have fine grassy leaves starting from base of plant. The tall flower stems rise between, crowned with rich umbels of waxy blossoms. The flowers are of great **KEEPING QUALITY**.

- B. Laxa.** Rich umbels of sapphire blue flowers.
- B. Coccinea.** (Floral Firecracker.) Tall stems bear masses of drooping flowers, vivid crimson scarlet with peagreen tips, looking for all the world like a bunch of firecrackers. Novel and interesting.
- B. Ixioides.** Called "Pretty Face." Delicate citron yellow.
Each, 10c.; one each of the 3 sorts, 25c.; 12 of a variety, \$1.00.

Erythroniums (Dog's Tooth Violets)

All have beautifully mottled foliage much like Cyclamen, flowers are like miniature lilies, with recurved petals, slightly fragrant.

- E. Californicum.** Cream to pale yellow. Charming.
- EI Album.** Pure white, very floriferous.
Like partial shade and moisture.
Each, 10c.; 3 for 25c.; 12, \$1.00.
